Bob: the reason for my trip home on the 29th evaporated. I have cancelled that trip. CAS may come up. I'm sure she'll let you know. It is my hope the house is all framed in before the termination dust turns to deep dodo. Life here is still snafu, but the big picture is that it will work out somehow and I checked the record: they've never shot an Appropriations Chairman yet. best teds

hi boss, [REDACTED]
things like that are so pestering and aggravating. the final footing was poured today, a steel re-inforced, four foot high wall to build the garage on. we are having a hard time getting hannah down to replace the house, hopefully they will come tomorrow if not they will be here wednesday. rocky is pretty impatient to get the plywood on the walls 'cause the north wind is beginning to blow. lots of termination dust on the mountain today. we are all happy that catherine is happy. my best, bob
